

Manifolds

Standard Brass 2-Valve Manifold

made in the USA

Now available for use with R-410A

Now available with larger 3- 1/8" (80 mm) gauges for better visibility

Original free floating dual O-ring sealing system for faster evacuation/ charging

Angled bar with knuckle clearance to better rotate hand wheels

Surge dampened gauges for reduced needle movement

The Industry Standard

An industry standard for countless years, the JB M2 series of manifolds features our full flow design for faster evacuation/ charging. Coupled with an angled bar for better knuckle clearance in rotating the hand wheels and the original free flowing dual O-ring sealing system, the M2 is the classic American made manifold. All of JB's brass manifolds are equipped with heavy duty metal gauge cases for added durability.

Color coded refrigerant dials for easy reading

Plastic hand wheels allow for easy turning.

Pull out proof hanging hook for convenience
