32003	Core remover bit

Core Removers

A31997

A31998

A31997 is a package of 10 1/4" SAE gasket seal caps with core remover feature. A31998 is a package of 5 1/4" plastic core removers.

A31997

A31998

Evacuation and Core Remover Tools

Specifically designed to valve off the system to remove valve core, these tools feature a quarter turn ball valve shut-off and O-ring seals. The valve core can be completely removed and replaced without losing system charge. Speed-up evacuation, recovery, or recharging time through the full flow port. Both tools have a storage area to house spare valve cores.

Part No.	Description
A32500N	1/4" Valve core remover
A32525N	1/4" Valve core remover with access port

A32500N

A32525N
