Why Pump and Dump? Don't spend money on products that are imported, breakdown, and cannot be repaired. Each ELIMINATOR® pump is built and tested to 25 microns at our facility in Aurora, Illinois. Quality and dependability are woven into the fabric of our products with hard working American pride. Backed by a 24 month over-the-counter warranty, completely field repairable and subjected to rigorous performance standards, when you purchase the ELIMINATOR® series of vacuum pumps you are getting a proven workhorse that works as hard as you do. American quality and American warranty. American made is JUST BETTER.
