

KOBRA

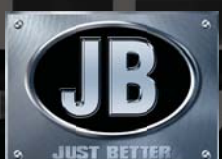

MAXIMUM FLOW. NO BLOWOUTS. BEST HOSE IN THE INDUSTRY

MADE IN THE USA

JB introduces a revolutionary patent pending design improvement to our American-made Kobra series of high pressure hoses. The internal enhancements significantly reduce blowouts, provide maximum flow, and are the best hoses available on the market. We have redesigned the gasket, the barb, the depressor, and the cup as a complete upgrade to the existing hose fitting.

KOBRA® Pressure	800 psi Working 4000 psi Burst	Able to handle ALL common refrigerants except amonia	KOBRA® Depressor	Machined	Allows for maximum flow
KOBRA® Lining	KEVLAR®	Same material in bullet proof vests makes hoses strong and flexible	KOBRA® Gasket	KOBRA Hood	The hood locks into internal ridge snapping into place eliminating blow outs
KOBRA® Cover	Nitrile	More oil, UV & Ozone resistant than neoprene so hoses last longer	KOBRA® Barb	Angled and self centering	Smooth easy action
KOBRA® Crimp	Grips Full Circumference	Yields maximum hold and uniform seal preventing leaks & bursts	KOBRA® Origin	USA	Hose & fittings made in USA
KOBRA® Depressor	Barbed	Locks into gasket and cup eliminating blow outs			

JUST BETTER
