

ATLAS Refrigerant Charging Scale

12 month warranty

JB is proud to introduce the new ATLAS refrigerant charging scale designed for the HVAC/R industry. Every day users will like the advanced solid state load cell for superior sensitivity (.25 oz/10gm) and accuracy. The ATLAS's 220lb (100kg) weight capacity, all metal scale construction, and hand held remote combine to make the ATLAS the best overall package in the HVAC/R industry today. The optional changing module turns the ATLAS into an automatic charging station.

Usage	Indoor or Outdoor (not waterproof)
Operating Temperature	+32 °F to 122 °F (0 °C to +50 °C)
Storage Temperature.....	+14 °F to 140 °F (-10 °C to + 60 °C)
Humidity	85% RH @ 113 °F (45 °C), Non condensing
Altitude	6500 ft. (2000 m)
Battery Life	Approximately 50 hours
Pollution Degree	2
Overvoltage Category	2

Twelve month over the counter warranty

Auto shut-off after 30 minutes to extend battery life (can be disabled)

220 lb (100kg) weight capacity for even the largest service jobs

Displays weight in decimal pounds, pounds and ounces, and kilograms

Parts are modularized for easy repair

All metal scale construction for improved durability and longer service life

Highly accurate load cell so refrigerant does not need to be on center of scale for accurate reading

Solid state load cell will not drift for improved accuracy & sensitivity (accurate to .25oz / 10gm)

Large LCD display can be read at a distance even in direct sunlight

Operates on one 9 volt DC alkaline battery

Weighs only 9 lbs (4.06 kg) for easy portability

made in the USA

JUST BETTER
