Form No. DV-40S-308

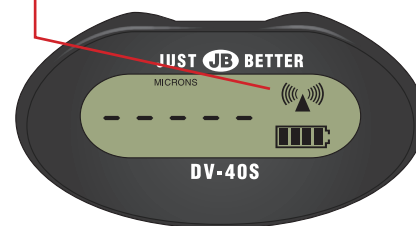

## CONNECTING A SMART DEVICE TO DV-40S (CONTINUED)

- Select your vacuum gauge from the list of detected devices

*IF THE DV-40S DOES NOT APPEAR IN THE LIST OF DETECTED DEVICES:*  
Make sure it is unpaired from any other, previously used, smart device.  
Turn off both the DV-40s and smart device, and start over from step one.

- Verify the connection by looking at the signal strength indicator on the DV-40S

- The DV-40S is now paired to your smart device and is ready for use

*IF THE DV-40S DOES NOT CONNECT AFTER SELECTING IT:*  
Make sure it is unpaired from any other, previously used, smart device.  
Turn off both the DV-40s and smart device, and start over from step one.
