

# DV-T1 TANK

## VACUUM PUMP OIL CADDY

- Changing the oil after every job will extend the life of your vacuum pump
- Clean oil ensures peak pump efficiency and deep vacuum
- Holds up to 5 oil changes
- Easy-to-carry handle
- No mess, No spills
- Environmentally friendly

For optimum pump performance, after each use, change the oil while the pump is still warm. Place the TANK caddy with its feet side down. Unscrew the plug in the drain base and position pump in the cradle to drain. When draining is complete, remove pump and replace plug and tighten.

*Recommended for use with JB BLACK GOLD Vacuum Pump Oil*
