

GOT THE GUTS TO BUILD SOMETHING BETTER?

The best ideas come from the field, not the boardroom. Think your idea has the GUTS to stand out?

We've worked hand-in-hand with real technicians to turn smart ideas into American-made tools—built in our Illinois factory with the same grit, durability, and quality we're known for. If you've got a product idea that solves a real problem, makes work easier, or just gets the job done better, we want to hear about it.

What we're looking for:

- Innovative tool or product ideas
- Improvements to existing tools
- Concepts that align with JB's quality standards and product line

What you'll get:

- A chance to collaborate with our product development team
- Recognition for your contribution
- The satisfaction of seeing your idea built with American guts

Submit your idea below and email this form to: productideas@jbind.com.

First Name:	Last Name:
Email:	Phone:
Describe Your Idea or Invention:	
Do you have a sketch, diagram, photo or video? (Circle) Yes No If yes, please upload to the email when sending this form	
Have you built a prototype or tested it? (Circle) Yes No	
Is your idea patented or patent-pending? (Circle) Yes No If Yes, please indicate when and the status:
